

Science Revision Worksheet Class-III

Chapters: Our Environment | Our Earth | Our Universe

A. Multiple Choice Questions

1. The place where plants, animals and humans live is called
 - a) House
 - b) Environment
 - c) School
 - d) Market
2. Which of these is a natural resource?
 - a) Plastic
 - b) Water
 - c) Paper
 - d) Chair
3. The Earth is also called the
 - a) Red Planet
 - b) Blue Planet
 - c) Ring Planet
 - d) Hot Planet
4. The shape of the Earth is
 - a) Flat
 - b) Square
 - c) Round
 - d) Triangle
5. The Sun is a
 - a) Planet
 - b) Moon
 - c) Star
 - d) Satellite
6. Which gives us heat and light?
 - a) Moon
 - b) Earth
 - c) Sun
 - d) Cloud
7. We should keep our environment
 - a) Dirty
 - b) Clean
 - c) Noisy
 - d) Crowded
8. Which of these is a man-made thing?
 - a) River
 - b) Mountain
 - c) Road
 - d) Tree

9. The Moon gets its light from the
 - a) Earth
 - b) Sun
 - c) Stars
 - d) Fire
10. How many planets are there in the solar system?
 - a) 7
 - b) 8
 - c) 9
 - d) 10

B. Fill in the Blanks

1. The Earth is our _____.
2. Plants give us _____.
3. The Sun is at the center of the _____ system.
4. Air, water and land are parts of our _____.
5. The Earth takes _____ hours to rotate once.
6. The Moon moves around the _____.
7. We should not throw _____ on roads.
8. The Earth looks _____ from space.
9. Animals and plants depend on the _____.
10. The Sun rises in the _____.

C. True or False

1. The Sun is a planet. _____
2. We should save water. _____
3. The Earth is flat. _____
4. Plants are living things. _____
5. The Moon has its own light. _____
6. Air is important for living beings. _____
7. Roads are natural things. _____
8. The Earth moves around the Sun. _____
9. We must keep our surroundings clean. _____
10. Stars shine at night. _____

D. Give One Word Answer

1. Our home planet _____
2. The nearest star to Earth _____
3. Natural covering of the Earth _____
4. Things made by humans _____
5. Place where living things live _____
6. Planet on which we live _____
7. Group of planets and the Sun _____
8. The Earth's natural satellite _____
9. Source of light during the day _____
10. The colour of Earth seen from space _____

E. Give Reason

1. Why should we keep our environment clean?
2. Why is the Earth called the Blue Planet?
3. Why is the Sun important for us?
4. Why should we plant more trees?
5. Why do living things need air?
6. Why should we not waste water?
7. Why is the can't we see Moon and stars in the day time?
8. Why should we not cut trees?
9. Why is earth called a unique planet?

F. Short Answer Questions

1. What is environment?
2. Name any two natural things.
3. What is the Earth made of?
4. What is the Sun?
5. Name two planets.
6. What is the Moon?
7. How can we save our environment?
8. What do plants give us?
9. What is the solar system?
10. Name any two living things.

G. Long Answer Questions

1. Explain the importance of environment.
2. Write five ways to keep our environment clean.
3. Describe the Earth in your own words.
4. Explain why the Sun is important for life on Earth.
5. Write about the solar system.
6. Differentiate between living and non-living things.
7. How do plants and animals depend on the environment?
8. What will happen if we pollute the environment?
9. Write a few lines on the Moon.
10. Why should we protect our Earth?

H. Draw, colour and label the given-

1. The Interior layers of Earth
2. Solar System
3. Types of pollution
4. Constellation
