

KALKA PUBLIC SCHOOL

ENGLISH WORKSHEET

CLASS IV

SECTION A (READING)

Q1) Read the comprehension and answer the following questions:-

Dinosaurs were amazing creatures that lived a long time ago, even before humans existed. They came in many different shapes and sizes. Some dinosaurs were very large, like the *Brachiosaurus*, while others were much smaller, like the *Compsognathus*.

Dinosaurs lived in a world that was very different from today. They ate different kinds of food depending on their type. Some were plant-eaters, called herbivores, while others were meat-eaters, known as carnivores.

Fossils are the remains of dinosaurs that have turned into rock over millions of years. Scientists study these fossils to learn more about how dinosaurs lived. Dinosaurs are a fascinating part of the Earth's history and help us understand the past.

1. What are the two main types of dinosaurs based on their diet?

2. What are fossils?

3. Why do scientists study fossils?

4. (i) Some dinosaurs were very large, like the _____.

(ii) Smaller dinosaurs, like the _____, were much smaller than the large ones.

5. Write the opposite of "different" as used in the passage.
