May 2024

**Class-1**

## **KALKA PUBLIC SCHOOL ALAKNANDA, NEW DELHI**

We at KPS are delighted to celebrate our 50th anniversary—a year where we will honor the traditions of the past, while celebrating what the future will bring for, guided by our strategic vision.

Our theme for the year, “Sustainability” will be a guide for all of our activities throughout the year. Through various engaging activities we will embark on a journey of exploration, unraveling the mysteries of nature and uncovering the interconnectedness of all living beings. The year-long celebration commencing from April 2024 to March 2025, promises to create a more sustainable and harmonious world. This newsletter of class - 1, showcases various hands on learning activities & highly innovative and creative ways of celebrating the special days and celebrations sustainably with our little KPITes

# Adventure Camp

A summer camp is an exciting opportunity for children of all ages to spend their time productively while learning valuable life skills and holistic development such as teamwork and compassion. It enable children to develop confidence, independence, social skills, leadership skills and physical fitness.

A fun-filled educational adventure training camp was organised for the students from 6th May 2024 to 10th May 2024. Students participated and enjoyed various fun loving activities with great zeal, excitement and enriching experience like Archery, aerobics, experiencing Tent house, Importance of First Aid, Musical chair, Puppet show- Story telling, Zorb, Hopping Hop, Tug of war, Win win balloon, Pool party, Burma Bridge, Tarzen swing, Trampoline, Samba.

Various activities were conducted in the class after the educational adventure camp training in which the students were asked to paste star shaped cutout on the stick and decorate it as 'We are enjoying Summer Camp', cat shaped finger puppet were made, tearing and pasting sheets on swimming tube shaped cutout were made, card making activity with red heart cutout were made for Mother's Day. These were given as take aways and students were very happy and excited.

# Mother's Day (Card Making Activity)

***Mother's Day is a special day dedicated to honoring and celebrating mothers and motherhood, recognizing the important role they play in our lives and society. It serves as a day to express gratitude, appreciation and love towards mothers for their nurturing, sacrifices and support. It is an opportunity to celebrate the unique bond between mothers and their children.***

***On this day students were asked to make a beautiful card and paste red heart cutouts. Also decorate it as "Happy Mother's Day and I love you mumma" and present it to their mother on Mother's Day. It was given as take aways. The students also shared pictures to the teachers of the beautiful moment they shared with their mom.***

# Structured Fun-filled Activity

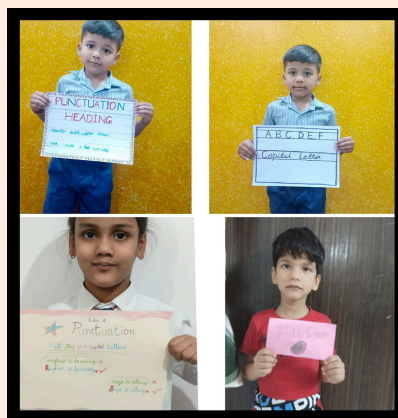

# English

***Punctuation refers to the set of symbols used to separate and clarify the meaning of sentences and written elements. A punctuation mark helps us to understand the sentence better.***

***A fun filled online activity was conducted with the students of class I in which students were asked to make flash cards of sentences. Punctuation activity aims to develop basic writing skills, understand sentence endings and enhance reading skills. Concept of punctuation became very clear and students enjoyed doing the activity.***

## विषय: कागज की नाव

### कागज की नाव का महत्व

कागज की नाव अक्सर बचपन के खेल का प्रतीक मानी जाती है। जब बच्चे बारिश के पानी में कागज की नाव तैराते हैं, तो वह उनकी रचनात्मकता और खुशी का प्रतीक होता है। कागज की नाव बनाना एक सरल और सुलभ शिल्प है। यह बच्चों में रचनात्मकता और हस्तकौशल को बढ़ावा देता है। कागज की नाव जीवन की अनिश्चितताओं और उम्मीदों का प्रतीक हो सकती है। जैसे नाव पानी में तैरती है, वैसे ही हम अपने जीवन में विभिन्न परिस्थितियों से गुजरते हैं।

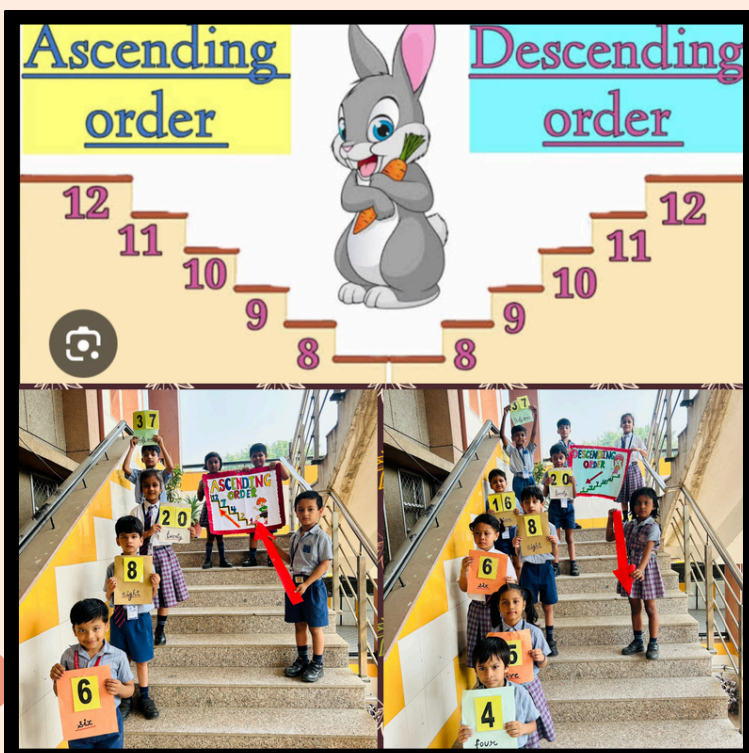

कुल मिलाकर, कागज की नाव एक साधारण लेकिन गहरे अर्थ और भावनाओं से भरा हुआ प्रतीक है, जो विभिन्न संदर्भों में जीवन की विभिन्न पहलुओं को दर्शाता है।

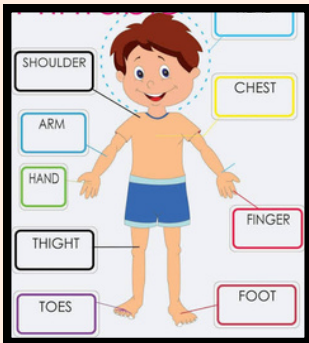

# Maths

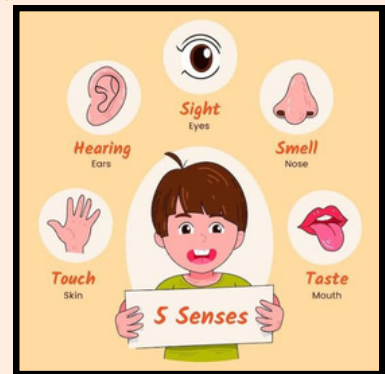

Ascending / Descending order is important because it helps classify data from the most important to the least important item or from highest values to the lowest values and vice versa. It helps the students to understand ordering of numbers and apply the rules ascending / descending order value. An activity was conducting in class where the students stood according to increasing order and vice versa. This activity helped the students to understand the concept of ordering of number very clearly. It helps in building up place value and number recognition skills which in turn set in place strong foundation of mathematical fluency and automaticity.

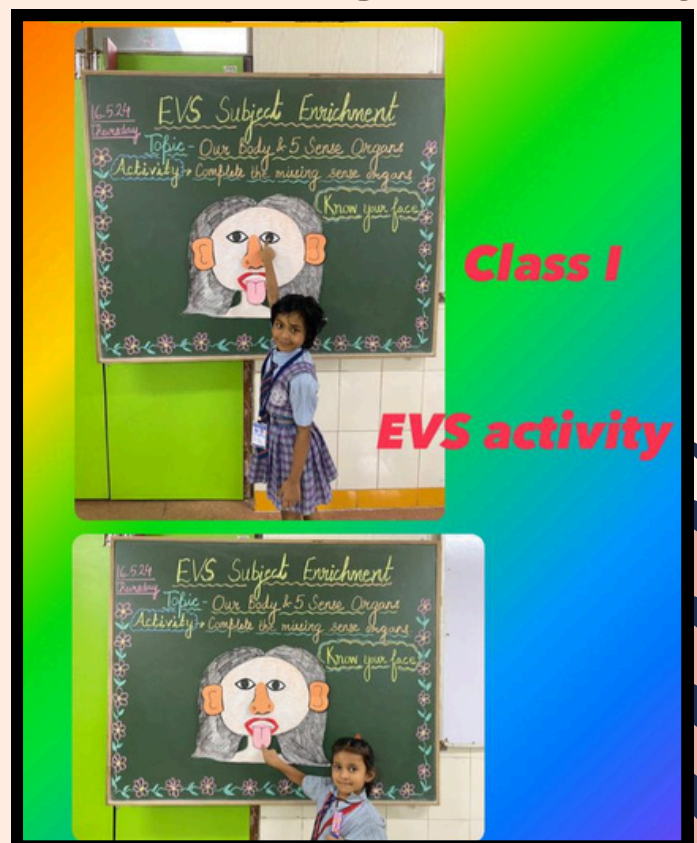

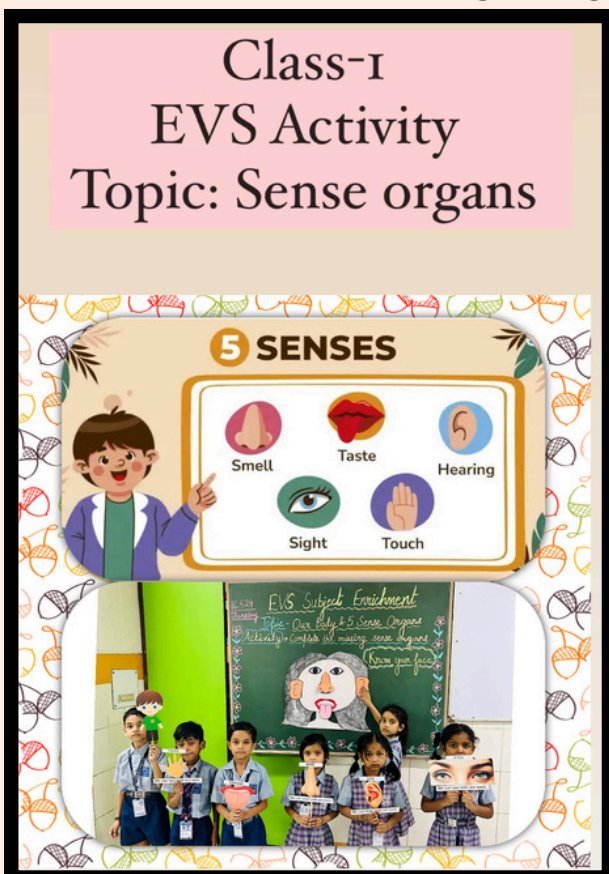

# E.V.S

## Topic: Our Body & Sense Organs

EVS enrichment activities develop aesthetic sensibility of the students. It provides opportunities to the students to explore and observe. It envisages exposing children to the real situations in their surroundings to help them connect and be aware of. An activity was conducted in the class 'Know Your Face' where students of class I were able to spot and paste the correct sense organs at the accurate place. They enjoyed a lot doing the activity.

# Abacus

Teaching Abacus aims to make mathematics enjoyable, accessible and comprehensible for young learners. It helps with basic calculations like addition, subtraction, multiplication and division. It also helps in effective counting.

Abacus activity was done in class in which the students used their fingers and kit to learn numbers.

# Computer

**Computer plays a vital role in children's education, creativity, socialization, and personal development, preparing them for success in the digital age. Students went to the computer lab for their first practical class.**

# Sustainability

## Ear Bud Painting on Animal Puppet

Sustainability is the ability to exist and develop without depleting natural resources for the future. It means using resources wisely so that we can help our planet Earth stay healthy and beautiful for future generations.

An activity was conducted in the class in which students were asked to do ear bud painting on animal shaped cutouts for story telling activity. They were also told about the importance of nature. These were given as take aways. Students really enjoyed this activity and got awareness about the importance of 3 R's - reduce, reuse and recycle which can make significant contributions to creating a sustainable future.

# Swimming

Swimming has a lot of benefits for everyone. When kids learn to swim, it is a great form of exercise to develop their strength, confidence and coordination. It is a relaxing activity that fuels brain health, strong bodies and improves cardiovascular fitness. Students enjoyed a lot doing swimming.

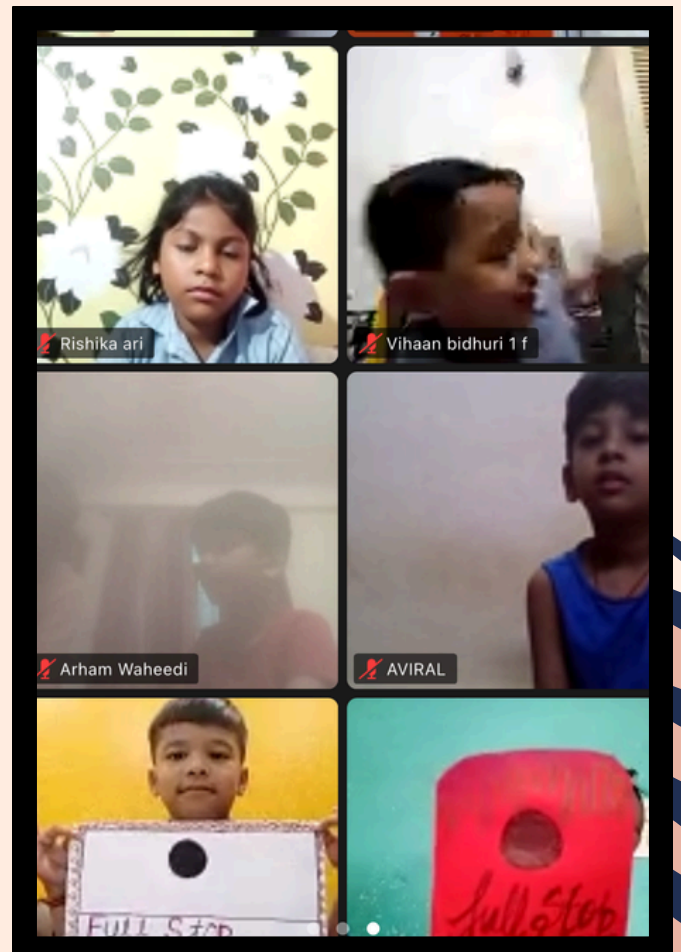

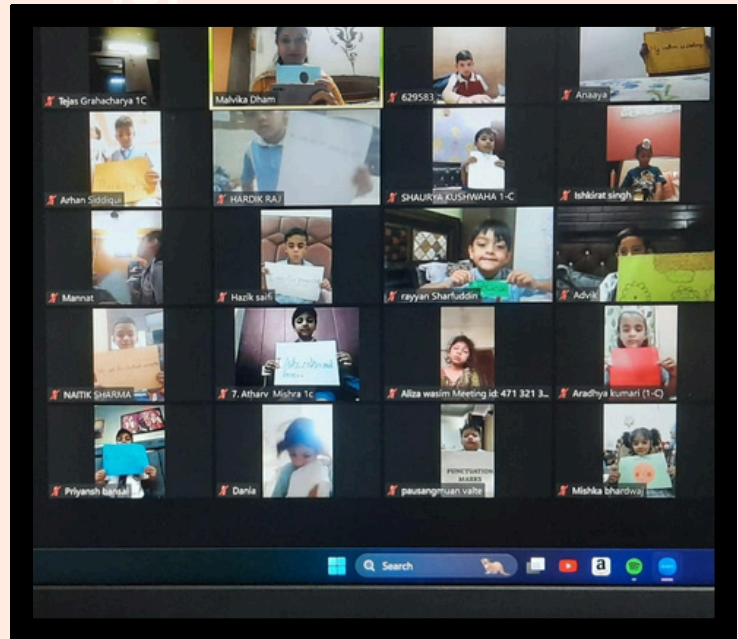

# Online Class

Online classes provides a comprehensive, flexible and effective educational experience that meets the developmental needs of young learners while preparing them for future academic success. It aims to provide a holistic educational experience that nurtures young learner's academic, social, emotional and physical development.

Students also get technological literacy about basic computer skills and safe internet practices.

By focusing on interactive and engaging content, maintaining a structured routine, and utilizing appropriate technology and resources, online classes can be both effective and enjoyable for young learners.

# Summer Vacation

Summer vacation is an essential period that balances relaxation and growth, ensuring children develop holistically and return to school rejuvenated and prepared for next academic year. It focuses on both educational and personal development.

Summer vacation gives an opportunity to students to spend more time with their loved ones, travel new places and create memories.

On the last day of school, students were asked to paste ice-cream shaped cutouts and decorate it as "Happy Holidays". It was given as take aways. The students were very happy and enjoyed this activity a lot.
