

# KALKA PUBLIC SCHOOL

## THE SUSTAINABLE DEVELOPMENT GOALS (SDGs)

### A YEAR-END REPORT – 2024- 2025

Kalka Public School (Primary wing) under the guidance of our visionary **Dr.Onika Mehrotra Ma'am** believed that 17 UN Sustainable Development goals, can serve the purpose of both the educational themes and learning tools for our young learners. They provide a framework for creating a more just, equitable, and sustainable world, and schools can play a crucial role in educating the next generation about these goals.

The same was integrated in the School Curriculum. Out of the 17 UNSDGs the School made **Sustainable Development Goal 3 (SDG 3)** as the central theme for its annual planner **2024-2025**.

SDG 3 focuses on ensuring healthy lives and promoting well-being for all at all ages. Good health and well-being are essential aspects of our lives that contribute to our overall happiness and quality of life. Good health allows us to live our lives to the fullest, participate in activities we enjoy, and be there for the people we care about.

Thus, curricular and co-curricular programs, subject enrichment activities and projects were conducted in order to deliver real life lessons into the classrooms through curriculum linkages and connections.

The other SDGs taken up during the session 2024-2025, were  
SDG 13: Climate action, SDG 14: Life below water, SDG 15: Life on Land

In conclusion, the School has proposed to make Sustainable Development Goal 6 & 7  
**(SDG 6) Clean water and sanitation**  
**(SDG 7) Affordable and clean energy**  
as the central theme for its annual planner **2025-2026**.

## ACTIVITIES PROMOTING GOOD HEALTH AND WELLBEING

Health and Hygiene Drive , Global Hand washing day , Yoga sessions conducted on regular basis ensured students practice self-care, physical fitness, developing a healthy mind in a healthy body. Meditation, breathing exercises and prayer are an integral part of the daily routine for all the learners.
